and NSD File No. L-00-72.

Dear FCC:

I am a senior citizen, living on a limited income. I have the Tracfone because it fits my budget. The only reason I have the Tracfone is to have it in my car in case I need help from the auto club, or to make a short call to verify that a friend is at home. . If you raise the cost of using this phone, you will be taking some of my income that I need to pay my bills. Please reconsider your decision. It will be much appreciated

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Pauline A. Hadden
